RALEIGH, N. C., TUESDAY MORNING, OCTOBER 14, 1873.

NO. 37.

The Thirteenth Annual Fair of the North Carolina State Agricultural Society.

The Opening Day-A Good Crowd and Large Exhibition-Governor Caldwell Formally Opens the Pair, Etc., Etc.

Yesterday the Thirteenth Annual Fair of the North Carolina Agricultural Society opened under the most favorable auspices. The weather was all that could be desired. The sun shone out brightly, giving to all nature a glowing and cheerful aspect. The skies were as soft and clear as those sung in Italy's praise. The roads were in excellent condition, and everything seemed to work in harmony with the designs and wishes of those having in charge the man-agement of the exposition.

At 11 a. m. the procession assem-bled in front of the Society Rooms, in the Fisher Building, Fayetteville st., and took up the line of march for the Fair Grounds. It consisted of the Salisbury Band, 12 pieces, under the leadership of the well known Prof. Neave, Marshals, carriages containing the Executive Committee and the Governor of the State, Stanley's Band, of Raleigh, and members of the Society. When members of the Society. When the procession reached the grounds the crowd repaired to the Grand Stand where they were regaled with excellent music by the bands.

PRESIDENT HOLT

announced that Gov. Caldwell would open the Fair. He said: Gentlemen :- The 13th Annual Fair of the North Carolina State Agricultural Society will now be formally opened by his Excellency, Gov. T. R. aldwell.

In response the Governor spoke as follows:

· Gentlemen: - I am at a loss to know whether the invitation to open the ceremonies of the 13th Annual Fair of the North Carolina Agricultural Society was intended by my friends as a kindness or unkindness. If the former, it falls far short of the mark. In fact, I take it as very unkind, from the fact that no time was given me to prepare a speech acceptable to these present. I will not attempt a speech, for it is unnecessary, as the work done by the President and Executive Committee of the Society speaks for me. One has only to look over these beautiful grounds and survey the elegant and spacious buildings and a more eloquent speech is uttered than can be delivered by any one in the State. Three short months go this attractive ground wa nothing but an old broom sedge field, filled with gullies and covered with runners. To-day it is as pretty an exhibition ground as any in the South, and give us twelve months more and we will challenge a comparison with any south or north of Mason's and Dixon's line. This, gentlemen, shows what brain and muscle, backed by energy and perse verance, will do when properly ap-plied. There was one thing which he would say, and which he felt it his duty to say: he hoped politics might never enter this enclosure. All should meet here as friends and neighbors. Let no political bitterness and hate rankle in our bosoms. Let us forget the dissensions of the past and join hands in camity in the future. It was time that these bitter antagonisms should cease. He appealed to all to forget the unpleasant recollections of the past and live in harmony and friendship henceforth. Men entertaining political differences in the olden time could be personal friends. Why could it not be so now? He would say to his Republican friends, and being a member of that party he had a right to say it take upon yourselves no fantastic airs in coming in here because you are a Republican. You are no better than anybody else! To his Demo-

true men working together for the common good of our State. In conclusion, the Governor again complimented the Society on the successful issue of its efforts, and hoped it would soon reach that height of prosperity, beyond which there could

cratic friends he would say: be not

ashamed; you are in good company.

He would be rejoiced to see this spirit

of fraternity and kindness prevade the entire State. Dissensions and animosities buried, and all good and

be no improvement.
The Governor, during his remarks, was frequently and loudly applauded, and when he resumed his seat "The Old North State" was rendered in fine style by Stanley's Band. Before going into details it will not

be inappropriate to give, en passant, a slight review of the history of the Society since the close of the war, and a hasty sketch of the grounds

as they now appear:
The first Fair held after the termination of the late bloody and devas-tating struggle was in 1869, and it was followed by others in 1870, 1871 and 1872. That these exhibitions were, in fact, failures is no matter of astonish ment, when the general prostration of all industries and industrial enterprises in the South, resulting from the issue of the war, is considered. The material wealth of our people had been swept away and worse than all, their energies sapped. The failure of the Fair of 1872 was so potent and the discouragement so widespread that the great majority viewed it as the last effort which the Soccity could or woud make to keep alive its organization. There was another great and seemingly insurmountable obstacle in the way of success-the grounds then in use were in a great many particulars un-suited to the purpose, and not susceptible of much improvement without a very large outlay. Though the premiums were small, the close of each of those exhibitions above named

found the Society deeply in debt.
Such was the condition of affairs in 1872. Despondency seemed to reign on all sides. But the dark cloud had a silver lining. A new and prosperous career was soon to be en-tered upon, and the gloom of failure to be dispelled by the effulgent light of success. During the meetings of the Society in the year above men-tioned a number of members, whose of Jno. R. Jones, Esq , of Beaufort, undaunted spirits refused to succumb N. C. This staunch and reliable to the general apathy and despair, is reached. This structure was built, Company always meets its losses contended that one more effort should as its name indicates, for the exhibi-

Lee, W. J. Hawkins, B. F. Arrington, L. H. Adams, R. F. Hoke, W. C. Stronach, W. J. Hicks, J. M. Heck, H. Mahler, H. A. London, W. F. Askew, W. G. Upchurch, Alexander Creech, Paul F. Faison, N. S. Harp and R. S. Pullen

These officers entered upon their duties with a zeal and vim that enduties with a zeal and vim that enthused the society and soon called into healthy vigor its flickering vitality. Not a dollar in the treasury and a debt to carry was the hard, dry and unquestionable fact staring them in the face; yet they were not discouraged. Work and pereverance was their motto and by it they have conquered. The removal of the Fair grounds to a location more suitable was resolved. The city authorities conwas resolved. The city authorities consented to a sale, by lots, of the old grounds, by which some \$14000 were realized. To this was added the sum of \$10,000 subscribed by the citizens of Raleigh, making \$24,000 raised in this city alone. The new grounds were purchased, and in a very short time intellect and muscle changed the old waste field, as if by magic, into one of the handsomest exhibition grounds in the South, with a promise of its becoming in the fu-ture one of the prettiest parks in the country. The

NEW FAIR GROUNDS

are located one and a quarter miles west of the city on what is called the Hillsboro Road and within a very short distance of the North Carolina and the Augusta Air Line Railroad, and are some 55 acres in extent. The visitors can reach them either by rail or the ordinary modes of conveyance. The entrances are two in number, and are flanked on each side by handsomely constructed two story offices for the use of officers of the society. One entrance is situated at the east end of the grounds, and is reached by debouching to the right from the main road at A. F. Temple's store, following a new and well built carriage way. The other entrance faces to the South and is reached by keeping the main dirt road or by rail. No matter by which entrance the visitor may approach, the first thing he or she is impressed with is the

GRAND STAND. If not grand in an architectural point of view it is certainly grand in proportions. In its construction its designers aaimed at effect, convenience and comfort, and they have most harmoniously. It is 300 feet long by 44 feet deep and three stories in height. The first floor contains various offices, including a telgraph office and a room for the special use of representatives of newspapers, dressing rooms, saloons, etc. The second floor is reached by a couple of broad stairways and is provided with comfortable high-backed benches, from which the spectator has a full view of every part of the magnificent race track stretching out before the stand. The third floor is provided with chairs, and is reserved for the benefit of those who are willing to pay 25 cents extra for an eligible, and at the same time more retired place, to witness the races. This floor might with propriety be dubbed tete-a-tete hall. It is estimated that this building will comfortably accommodate 6,000 people. Each floor has its refreshment saloons, dressing rooms, etc. On each of the floors ample provision has been made for colored people, they having their own entrance, saloons dressing rooms, and are separate and distinct. In front of this mammoth building is the

JUDGES' STAND., three stories high. The first floor is the weighing room, the second for the Judges of the races and timekeepers, and the third for the ubiquitous reportorial corps. When entirely completed, the structure will be quite an ornament. From this ele-vation it is a beautiful sight to see a stylish horse speed around the splen-did

RACE TRACK,

which has been provided after a great deal of hard labor. The track is of an oblong shape and a half of a mile in extent. It has been pronounced, justly so, by old turfites as one of the best in the Southern country, comparing favorably with some of the fashionable courses at the North. That the track is a success there is no question, and to Messrs. T. F. Lee and Jas. L. Royster is the credit due for the excellent character of its build and its rapid construction.

The next point which attracts at-

GENERAL EXHIBITION HALL, and although it does not assume the leviathan proportions of the Grand Stand, yet approaches the gigantic. It consists of a central octagon building three stories high, with single story wings running east and west. The entire building is 250 feet in length and 44 feet in depth. In the wings are located Farmers' and Mechanics' Halls, and spacious halls they are too. Here every arrangement has been made for the wants of the exhibitor as well as the comfort of the visitor. On the second floor of the central part of this building is located the realm of beauty,

FLORAL HALL. whereeverything bears the impress of a refined and exquisite taste. Here are to be seen the highest types of natu-ral and artificial beauty. Let the eye rest where it will and it beholds some object suggestive of the noble attributes of a true woman's nature, their tenderness, forethought and innocent fancies.

Ascending the stairway leading from this hall the sight-seer is inducted into the

DEPARTMENT OF FINE ARTS, where he can feast his eyes on statuary, paintings, photographic views, to his heart's content. Passing out of the western door of the General Exhibition Hall and walking some thirty yards or more,

MACHINERY HALL be made. A reorganization was gone into and the following officers elected:

President, T. M. Holt; Treasurer, ting machines. Through the centre

of the building a branch track of the Raleigh & Augusta Air-Line Railroad runs for the unloading and re-loading of heavy machinery. The whole building is 200 feet long and 44 wide. There are numbers of things that could be described, and would doubtless be read with interest by stay-at-home readers, but as this is intended only as a rapid and gen-eral sketch, details cannot be pursued without prolonging it to an extent not designed to be given it. The stalls are over 250 in number and are designed for the accommodation of all kinds of live stock, and are well road runs for the unloading and re-

designed for the accommodation of all kinds of live stock, and are well and substantially built. They are so located as to give visitors a pleasant walk in inspecting them, at the same time at a proper distance from the main buildings. work of ornamenting these grounds, over one million feet of lumber have been used and the cost, including purchase money, is something over ously loaned to the Society by the North Carolina State Life Insurance Company. That the officers of the Society and the Executive Committee should have done so much in so short a time, embarrassed as they were at first by financial difficulties, seems incredible, yet they have done it and the fact is susceptible of occular demonstration. They have their reward in the consciousness of advancing the material prosperity of the State in this successful effort to foster and push forward one of her most vital interests—agriculture.

As new entries were being made all during the day in the various de-partments, it is deemed expedient to postpone, until the next issue of this paper, a descriptive account of the contents of the various Halls. By 12 m. to-day the exhibition will be fully under way and then a concise and satisfactory account can be given. Suffice it to say, under this head, that the exhibition is already very handsome, and all the indications are that each and every department will have a display, the like of which was never witnessed in this State. The next feature of interest was

The first race was for a trotting purse for \$100 for all horses that never trot-ted before in public, \$65 to the first, \$25 to the second and \$15 to the third. One mile heats-best three in five. At 3 o'clock the following entries were made at the Judges' stand :

Bay mare "Belle" by Paxson gray mare Nellie Gray, by Mr. Lassi-ter: sorrel mare Silk Stocking, by y Mr. Worthington; sorrel mare 'Flyaway," by R. H. Williamson. The horses came to the stand for the first heat in the following order: Belle, (on the inside), Nellie Gray, Roanoke, Silk Stocking and Flya-

Before passing the stand on the first half mile it was evident that the contest was between Silk Stocking, Nellie Gray and Roanoke; Silk Stocking having opened a respectable gap between the two latter, but on the last quarter the two came gallantly up but not enough to win. Silk Stocking 1, Roanoke 2, Nellie Gray 3, Flyaway 4. Belle withdrawn. Time, 3:181.

The second heat was more closely contested and more exciting than the first. Silk Stocking led beautifully till on the home stretch, when he broke and Roanoke came to the stand first. Nellie Gray 2, Silk Stocking 3, and Flyaway 4. Time 3:13, The third heat was also won by Roanoke in 3:13 and the fourth in

The running race was for all ages. Single dash of a mile, purse \$50; five

Sagamore, the Society horse, at the pole. Morgan entered by G. W. Wynne, 2d, Flora by Mr. Staton, 3rd, Brooks, by T. L. Emry, 4th, and Piney Woods, by the same, 5th. Piney Woods won the heat beautifully in 2 minutes, with Flora 2nd and

Brooks 3rd. Thus closed the day.

ENTRIES. The following is the list of entries up to yesterday morning. Owing to the immense number of entries made during the day, we were unable to get to the books, and consequently the list is incomplete. As fast as they can be obtained they will be published:

...OUTOBER 14, 1873 TUESDAY ..... Fair Week.

Our readers have manifested such a deep concern in the State Fair, that we propose to give full daily reports of the exhibition and its incidents in the RALEIGH NEWS. To do so, we will be compelled to encreach upon our editorial columns, and also to abridge our general news and State I tems. After the Fair is over, we will resume our usual variety.

THE Odd Fellows, Masons and Churches of Releigh are engagd in raising funds for Memphisand Shrevco encount in the state of the sta

notified THE fame of the gifted and eloquent Voornees will attract a very lo Harge crowd on Friday to hear his. address VoorHEES never makes a failure on such occasions, and a rich oratorical treat is in store for all who may be present on that day.

In our telegraphic columns to-day will be found a long statement from President GRANT, on the financial situation. The telegrams were very obscure and incorrect, and it was impossible to decipher them. We were therefore compelled to omit a portion of the President's statement, and we fear what is given will not be intelligible to our readers.

Rev. Dr. MASON, of the Episcopal Church of this city, preached an able and appropriate sermon on last Sunday morning on benevolence and charity-in the course of which he pleaded for the Memphis sufferers. A collection in aid of the afflicted of that city was then taken up, and a considerable amount—we have not of learned how much-was contributed. On Sunday before last, Dr. MASON took up a collection for Shreveport.

DURING the present week, there will be citizens from every section of the State in Raleigh. If the condition of the two afflicted Southern cities was properly presented to them, a large sum of money might be raised for the destitute and the dying. Would it not be well for the visitors of the Fair to have a public meeting, for the purpose of raising contributions for Shreveport and Memphis? If one night was given to this cause during the Fair, instead of the theatre or other places of amusement, much suffering would be relieved.

The State Fair.

The Thirteenth Annual Fair of the North Carolina Agricultural Society commenced on yesterday, and will continue throughout the week. A brief history of the Society and the circumstances under which the present Fair is held, will be found in

our local columns this morning. Yesterday was a bright, beautiful, lovely day a most auspicous opening for a successful exhibition. We hope that the weather may continue as favorable during the whole week, but this is rather too much to expect.

No Fair has ever been held in the State which has excited so much public interest as the present one, and it is confidently believed that it will far excel all its predecessors, not only in the number of visitors, but also in the variety and merit of the articles on exhibition.

Raleigh will be taxed to its utmost during the week to entertain comfortably the visitors from every portion of this and other States, who will be in attendance on the Fair. That the city will maintain its high character for hospitality and generosity, we feel well assured.

We believe North Carolina will have just reason to be proud of this exposition of her great resources-of her agricultural productions, her useful inventions, her mineral wealth, her industrial enterprises, her fruits, her live stock, the handiwork of her noble women and the general evidences of her progress in every useful and honorable pursuit.

We trust the occasion will be one which will contribute not only to the pleasure and gratification of the visitors, but which will redound to the welfare and honor and giory of our detay dien, i state bevoled

The situation in France is becoming more and more complicated every day, and any prediction based upon the news of one night or even one week would in all probability be com-pletely overturned by the events of the following four and twenty hours.

The meeting of the Assembly will not take place until next month, and it is impossible to say what may or msy not take place in the intervening time. There is no doubt, however, that the republic is being slowly strangled, and that its life can be saved only by a sort of miracle. The proposition of M. Thiers to extend MacMahon's term, which is one of the most recent moves on the board, is at best only a make-shift, and even if successful, cannot be of very great or lasting benefit.

Some idea may be formed of the progress of grape culture and wine manufacture in the United States from the fact that California this year will produce over twelve million gallons of wine, valued at three and one half million dollars; two million pounds of grapes for table use, and two hundred and fifty thousand pounds of raisins. Forty thousand acres are devoted in California to the cultivation of the grape crop, and it is estimated that eight million acres of land in that State are specially adapted to grape culture.

Subscription are being taken up everywhere in the land, and cities are subscribing through their authorities to the Memphis-Shreveport fund.

Satisfaction Guaranteed in Every Instance. OTHER MACHINES HAVE THEIR PECULIAR MERITS-THIS HAS NO DEFECT.

The Washing of a Family of Ordinary size Easily Accomplished before Breakfast!

Have Never Known One That Failed to Give Satisfaction! No other Machine can be sold after the "FRANKLIN" has been Tried.

From One to Two Thousand Dollars a Year Guaranteed to Working Men Every County Sold in Which it has been Introduced.

WE CHALLENGE THE WORLD TO COMPETE WITH IT !!! The inventor of the "FRANKLIN STEAM WASHER" was owner of the right to manufacture the "Improved" woman's Friend in certain territory. While manufacturing these mischines, and watching attentively their action and the manner in which they operated, and the results, he discovered certain prominent defects, therein. He spent ten months in the study of the subject of finding remedies for these defects. He has at last succeeded—and as the result of his investigation and study, he offers to the public the "FRANKLI STEAM WASHER," which is by far the best Washing Machine ever patented. We claim as an evidence of its merit that "LETTERS PATENT"

while the FRANKI Washang washing, which is over the certificates of its merit that "LETTERS PATENT" were granted over all others.

It will wash anything from a Lace Collar to a Bed Blanket. It will cleanse the clothing without tearing and more thoroughly than can possibly be done by hand labor or the use of the rubbing board. With one-fourth of the labor four times as much can be done in the same length of time as can be done by hand. We could publish columns of certificates of its worth from those who have used it, but for the present we prefer the WASHER to speak for twelf. We give a few below: Louisburg, September 27th, 1873. Messrs, BARROW & PLEASANTS, GENTLEMEN :- Mrs. Davis has tried the "FRANKLIN STEAM WASHER" and in

structs me to say, in reply to your enquiry, that she is well pleased with it, and believes it to be all that you claim for it as a labor saving Machine. It does its work well and diminishes, by more than half, the labor of washing. She cheerfully recommends it Louisburg, September 10th, 1873. Messrs, BARROW & PLEASANTS. GENTLEMEN: —Before purchasing your Steam Washer, I paid four dollars per month for our family washing; now without any additional help, I have the washing done at home and pay fifty cents a week to have the ironing done. In this way I save \$2 per month, and my lothes are much whiter, and I am satisfied, will last much longer than when washed by rubbing or the use of a board. It is all that you recommend it to be.

Very respectfully,

Mrs. C. M. Cocke.

Mesers, BARBOW & PLEASANTS, LOUISBURG, September 11th, 1873. GENTLEMEN:—I am using your Steam Washer, and it proves a success and I take leasure in recommending it to the public, and testify to its being all that you represent it to be.

Very respectfully,

Mrs. P. B. HAWKI: S. Messrs. BARROW & PLEASANTS, Lou.saure, September 8th, 1873.

GENTLEMEN:—I have been using your Franklin Steam Washer for some time and can safely say is far the best I ever saw. I cannot do without it. Mrs. A. W. WILSON. Messrs, BARROW & PLEASANTS, FRANKLINTON, September 9th, 1873 Sirs—Mrs. Gibbons has been using your "Frank'in Steam Washer" for two weeks and pronounces it a grand success. Messrs, BARROW & PLEASANTS. Louisburg, August 4th, 1873.

GENTLEMEN:—I take pleasure in recommending your "Steam Washer." I acknowledge myself to have been incredulous with regard to yours, after having tested several others that had been as highly recommended to me; but the inconvenience to a large family, of not being able to get a good washer, regularly, induced me to give yours a trial. I am gratified to pronounce it a perfect success. I used it according to directions, and did two week's washing in two hours, nor did I give the first kub. Whiter or more nicely washed clothes, I have never had. It only needs a trial to convince.

Respectfully,

Mrs. W. H. FURMAN.

Messrs, BARROW & PLEASANTS, Louisburg, July 12th, 1873. GENTLEMEN:—Through the kindness of your agent, Mr. J. J. Person, I have tried your "Steam Washer," and find it by far the best I ever used. It certainly saves a great deal of hard labor and does not damage the clothes. It is all that you recommend.

Respectfully, Mrs. Dr. J. B CLIFTON. Messrs, BARROW & PLEASANTS.

DEAR SIRS:—I take pleasure in testifying, that I have used your "Steam Washer," with perfect success, and find it by far the most speedy and effectual mode of cleansing all kinds of fabrics I have ever known,

Very truly,

Mrs. Dr. W. R. King.

OURSELVES AS OTHERS SEE US:

"We take pleasure in saying that the "Franklin Steam Washer" is all thist its proprietors claim it—a complete success. We hazard nothing in saying that nothing has ever been put upon the market that meets with such universal favor. We are yet to hear of the first one that d es not give entire satisfaction.—Louisburg Courier.
"It is meeting with universal and unprecedented favor among domestic circles."—Rocky Mount Mail.
"Messrs. Barrow and Pleasants constitute one of the strongest and most reliable drms in Louisburg, and from what we have heard of the "Franklin Steam Washer" and the high character of the parties controlling it, we have no doubt but that R is all that they represent it to be."—Biblical Recorder.

"The patentees claim for the "Franklin Steam Washer" a superiority over all others, and from the description we have had of its workings, we believe its claims are well founded."—Christian Advocate.

"We have known Messrs. Barrow and Picasants from "our youth up," and know they would not recommend anything unworthy of patronrye. They are leading merchants in Houisburg."—Asheville Citizen.

We have acquired by purchase of the Patentee, Mr. S. W. Bartholomew, the sole right to manufacture and to sell the right to manufacture the "Franklin Steam Washer" within the United States and Territories.

We now offer the "Franklin Steam Washer" to the American people with full confidence that it will do all that we claim for it, and in order to introduce it as rapidly as possible, we are offering great inducements to working men who want to make money; we will sell State or County rights on very reasonable terms; for instance, we will sell in almost every family.

To parties wishing to buy State or county rights, we will, send, on receipt of five dollars will be also to every family.

To parties wishing to buy State or county rights, we will, send, on receipt of five dollars, just one-half of the retail price, the "Franklin Steam Washer" complete, with mistructions how to use, &c; and after satisfying themselves th

Within the last twelve winters he has killed six hundred turkeys, making an average of fifty each winter. The largest number killed by him in any one season was sixty-eight. One day last week Mr. D. killed a couple of turkeys and a

WHAT IS A "PANIC ?"-Herodotus tells us (vi. 105) that when Darius threatened Attica, the Athenianssent to Sparta a herald named Pheidippides to implore help against the Persians. The god Pan met Pheidippides near Tegea, called him by name. and bade him demand of the Athenians why they paid ao worship to him, a god who had often helped them, and was about to do so again. After the great Athenian victory at Marathon the Athenians, ascribing it to Pan, consecrated to him the cave below the Acropolis, and afterward

rshiped him there. The defeat of the Persians at Maraon was accompanied with a sudden error, which seized upon large masss of men without visible cause, and ince all such mysterous frights came to be ascribed to the god who there "helped the Athenians." The term 'panic' (panicon) is used in this sense by many of the latter Greek writes, specially by Polybius; it is repeatedly used in its Greek form by Cicero, but is adopted as a Latin word by later writers, and has passed from them in the same sense into all the languages of modern Europe.-Har-

Boston makes a pretty good thing the annexation of Charlestewn, Brighton and West Rexbury, which was voted upon last Tuesday, and will be formally carried out the 1st of January next. In the first place, her population will be largely increased, and, in the second, she gains several important commercial advantages, such as an additional water supply, the control of the great stock-yards and slaughter-houses, and ample ground for parks, which are so much needed by the city. Brookline, hav-ing failed to vote in favor of annexation, is placed in a somewhat awkward position; but it is thought she will reverse her decision at no distant day, and become one of the spokes of the "Hub."

Georgia farmers appear at last togiven to planters in the cotton States, to grow their own corn. This year 1,702,169 acres were planted in cotton, and 1,791,468 acres in corn, showing a difference in favor of the latter, and there are beside over 1,000,000 acres planted with other crops.

It is stated that fifteen out of every forty-one who have died in Connecticut during the past five years were drunkards, Rather a land of unsteady than of steady habits, one might judge, unless "steady drinks" be re-

The Democrats in the Third Congressional district of Massachusetts have nominated Benjamin Dean for

The Nathan Mystery and the Self-A dispatch from New York, dated

the 9th instant, says: John T. Irving, the self-confessed murderer of Mr. Nathan, has reached New York from San Francisco in charge of detectives. It is stated that the prisoner has made another communication which, while known to be partly false, contains some highly important information. One of the detectives states that the story as now told by Irving is different from others as published, and he is of the opin-ion that the Nathan case will again

be revived, and the work all have to be done over again. Many facts that have never appeared in print relative to the Nathan case have been known by the officers engaged in the case some time, who were only awaiting connecting links which would make the chain of evidence complete, and it is now believ-

ed that Irving has the power to place them on the right track. It is believed that the following named persons were engaged in the attempt to rob Nathan's house July 29, 1870 : Geo. Ellis, Dan Kelly, who is now in Sing Sing serving a term for burglary; Carr, also in Sing Sinig; Billy Forrester, now in Joliet prison. The job was "put up" by a German woman, whose name could not be ascertained, and who was then lodging at Billy Johnson's. She subsequently went to board with Irving, managed to secure the papers, etc., by which he proposes to show all about the Nathan case. Dan Kelly was heard to say that he killed Na-

than, and to tell how he used the dog in doing so.

It is said Irving will prove that Kelly, now in Sing Sing, killed Na-than with the iron dog, which he obtained of a caulker in the Brooklyn navy-yard; that \$10,000 in bonds, which were in Nathan's safe, were seen in Kelly's hands a few day after

the murder; that these bonds were negotiated, and that Nathan's watch and chain were pawned in Centre street the day after the murder.

San Francisco has a new Know-Nothing party, the "Knights of the Cresent," and it cast 6,000 votes at the late election, electing a chief of police, a sheriff, a recorder, and a majority

of the school directors. A Maine inventor is said to have

patented a poly-morphous article of furniture, combining a wardrobe, bed-

of all sorts. Our goods were bought during the recent panic in New York by our Senior partner, when we were enabled, purchasing for cash, to buy goods at much less than their real value, therefore all wishing to purchase any article in our line, will find our goods offered as low as they can be bought North or South.

We offer great inducements to merchants. As most of our goods were bought by the case we sell as low as northern jobbers.

TEXAS AND ARKANSAS.—As many North Carolinians are emigrating or traveling to and through the fertile States of Texas and Arkansas, we invite attention to the comfortable and expeditious route offered by the Memphis, Charleston and Texas short line which has been opened to this travel within the last few months, it being an all-rail route, avoiding both river and gulf navigation. This line is composed of the following roads: The North Carolina to Charlotte, Richmond and Atlanta Air-Line to Atlanta, Ga., the Western and Atlantic to Chattanooga and Memphis, the Charleston from Chattanooga to Memphis, the Memphis and Little Rock to Little Rock, the Cairo and Fulton to Texarkana, and there connect with all the Texas roads. Special arrangements have been made over this line by the General Superintendent, Captain J. C. Ross, and the General Ticket Agent, Col. J. C. Lopez, and tickets can be had at all the principal ticket offices in North Carolina.

THE SOUTHERN EXPRESS COMPANY TO THE RESCUE OF THE MEMPHIS Sufference.—We are pleased to see the Southern Express Company volunteering to aid the sufferers by yellow fever in the Western sister cities. The following card from the Agent in this city explains itself:

"The Agent of the Southern Express Co., in Memphis, unites with the Howard Association in appealing to the charitable of our city for con-tributions in aid of the suffering by the yellowfever in that city—the dis-ease is spreading rapidily and consequently the sufferring is great. A'd has en sent from other cities, but it is exhausting rapidly in alleviating the distress of the poor and afflicted. Donations will be received by the undersigned and promptly forwarded free of charge to the Agent of the Ex press Co., to be placed in the hands of the Howard Association in Mem-phis and will be appropriately acknowledged.

A PRIVATE LETTER FROM MEM-PHIS.—A private letter to a gentle-men in this, dated last Friday, at Memphis, Tenn., says: "Death on the pale horse is riding madly over our city. Many of our best citizens have been swept away by its fearful scourge, yellow fever. Hundreds who fled to the country have since dled. The ministers of the different churches have worked earnestly to help the suffering. Some have been called to their long home while in the discharge of their duties visiting the sick and burying the dead. Money and nurses we need most."

TELEGRAPHIC NEWS

SUNDAY NIGHT'S TELEGRAMS. President Grant's Views of the Pre sent Financial Condition of the

Country. WASHINGTON, Oct. 12.-President Grant yesterday in an interview said he thought that the panic generally throughout the country differed essentially, both in cause and eff et, from any similar event of which he had knowledge. When such events have heretofore taken place distrust has been occasioned as to the currency in circulation. Every one in poss sion of currency would rush to the banks with it or spend it in a more liberal manner, but now curren-cy, instead of being depressed is actually becoming daily more valuable. He thought he saw in passing events, the first steps toward resumption, for the reason panies generally occur when the country lacks prosperity, such as from the failure of crops and over pur-chases from abroad. As in this instance the panic has occurred in the midst of the greatest general prosperity. He believed he was correct in saying that our exports since the beginning of the present fiscal year, have exeded our imports: that, too, at a time when comparatively no cotton, the largest single item of exports, was now moving. Everything we produce is in great abundance, and the demand for it abroad is beyond the supply. We have to spare from our manufacturies, and many things which have been imported for a large extent, are not only being produced at home, but we are actually completing the supply of foreign markets.

The aid recently rendered in the purchase of an unusually large number of bonds was not so much real as moral; the fact is the money corporations of the country had become stampeded, in turn startled and stampeded the whole country. Had not the Treasury seemed to aid them some way the fright would become general, and the consequence to the eountry more fatal. As it was, he really believed the effect was going to be beneficial in many ways to the country at large, though the cost to some individuals deserving a better fate may be severe. A return to a firm basis can never be affected exby value. This always work hard to a large class of people who keep all they are worth in margins; the shrinkage has now taken disasters to individuals have

already overtaken them.

The currency has appreciated to par with silver. He wondered that silver is not now pouring out. When this should take place, his theory was, that the country could afford from two to three hundred million of it. This would prove a great benefit in several ways. It would supply a market for a number of years for a product of our mines now becoming a drug. It would take the place of \$40,000,000 of fractional currency, about the amount of change that has proven to be necessary for the transaction of business, and will become the currency which will be handled in small amounts. He believed that silver being once more in circulation, greenbacks would never be at a discount, for silver in all fluctations from that point would be the appreciation of value of our paper money. As to legislation, the President said he thought much upon the sub-ject. If he were now engaged in writing his annual message to Congress, he should recommend positive authority to reissue the forty-four millions of reserve for the banking law, with the same protection to bill-holders as now.

The President did not contend that he would be right in these recommendations, but they embodied the views which his unsided judgment had brought to him. There was no question but that much demoralization, injurious speculation and gambling were caused by the accumulation of capital in large concerns during a portion of the year when money is not required for the moving of product by the payment of interest for denosits. This leads country bankers, merchants and others to deposit in city banks, principally in New York. to make this money earn something during the period. When they do not wish to use it, banke paying interest on deposits cannot afford to hold the money idle, he ice gambling in fancy stocks, millions of which are on investment that would not support a family, even on the most economical manner. Such gambling and speculation had, he trusted, received a blow from which he hoped they never would recover. He would recommend a Patent Office Bank. This would give an institution in which everybody would have great confidence, within the reach of every one who can approach a money order postoffice. He should recommend the payment of four per cent. to depositors and the conversion of deposits, either in outstanding U.S. onds or into new four and a half per cent. bonds and the taking up of a and Shreveport, and Shreveport, Tom Allen has challenged Joe Ca-

> NOON DISPATCHES. Church Matters, &c.

NEW YORK, Oct. 13.—Tardy publi cation is this morning given to the letters of Dr. Tozer, late Missionary Bishop of Zanzibar, addressed to Bishop Potter of this diocese and the Dean of Canterbury, finding fault with the latter for participating in the Communion service in the Presbyterian Church of this city on Sunday last. Dr. Tozer says this conduct of the Dean will be accepted in this country and England as sufficient reason and justification for Episcopalians attending the attractive services of the Catholic Church, and may be cited. He pronounced the representation that the Episcopal Church is a haven of rest for those who are led by multiplicity of doc-trine, a delusion and snare.

Sunday. Thos. Jukes, Grand Chancellor Kights of Pythias of Tennessee, is down with the fever, and the duties of his office are devolved upon W. H. Merston. Thisorder has eleven patients, and there is no money in the treasury, the demands upon them for aid to supply the brother-hood having exhausted their relief fund and contribucions. Three physicians from Chicago and one from New York, arrived here yesterday and offered services, which were accepted and went to work. Jas. W. Toomy, a visiting member of J. O. O. F of New Albany, died yesterday.

MIDNIGHT DISPATCHES.

Heavy Money Shipments—A Spanish Naval Fight.

LONDON, Oct. 13.-Over \$30,000,000 has been drawn from the Bank of England, all for America. Large sums have been shipped from other points.

MADRID, Oct. 13.—The Intrausigente fleet has been defeated by the national squadron. The fight took place on Saturday afternoon, near Cartagena, and lasted about two hours. The insurgent vessels were considerably injured, and were compelled to return to Cartagen harbor. The Government squadron consisted of the Almansa, Victoria Carmen and two smaller vessels. Admiral Labos was in command. transegente fleet numbered four vessels. There is a rumor that Tetuen has been captured, but the Government has received no such intelligence, and it is thought to be untrue. There is great rejoicing here over

this victory.

LATER—A special dispatch from Cartagena to the *Times*, gives the folowing particulars of the engagement between the Spanish government squadron, under Admiral Lobos, and the fleet of the Intransigente vessels. Upon the appearance off the harbor of a National squadron the Intransigente Junta held a consultation and decided to fight, although they had no hope of achieving a victory. Some of the garrison were in favor of surrendering the city, but the majority of the men, especially deserters from the Government army, were determined upon resisting to the last.

Gen. Contreras and several ot the Junta went on board the Inmancia. All the morning was consumed by the insurgent vessels in taking in coal and provisions. At noon on Saturday, everything being in readiness the four vessels weighed anchor and sailed out of the harbor amid loud cheers from the populace and insurgent troops. After proceeding a short distance, Admiral Lobo's fleet, consisting of the Vittoria Almansa, Villa de Madrid, Carmen and two paddle wheel steamers were met and the engagement instantly began. The fight lasted two hours, when the Intransigente fleet was defeated and driven back to Cartagena, their vessels being badly damaged. The Insurgents showed great spirit, but handled their ships badly.

The Star says that Secretary Richardsonin speaking of the use of the use of the legal tender reserves, and the present amount of circulating notes, says he would oppose any bill for permanently increasing the legal tender circulation above the present standard, as well as a bill permanently fixing it at three hundred and fiftysix million. The Secretary of the Treasury must at all times be able to pay the appropiations of Congress or uspend payment until he can accuumulate currency for that purpose. If the limit is fixed then the the Department will be obliged to suspend payments on all warrants when the currency balance is exhausted.

Generous Contributions COLUMBUS, GA., Oct. 13.—The citizens of Columbus, Ga., have raised in two days sixteen hundred dollars by voluntary contribution to aid the Memphis and Shreveport sufferers, and contributions still coming in The Masons gave one hundred and sixty-five dollars, and the Jews two hundred. Mayor McIlhenny expressed the money to the proper parties at once.

The Situation in Memphis-A Hope is Inspired—The Mortuary List— Strange Phases of the Disease, Etc.

MEMPHIS, 13.—The slight frost this morning has inspired new hope. Very few cases of fever are reported up to noon. The important feature now noticeable in the disease is, that it soon turns its course to recovery or death. Many of the cases attacked a week ago are on the street, while those attacked earlier are still confined to their rooms. The mortuary report from noon yesterday to noon to-day, shows a list of forty-two, of which thirty-six died from yellow fever, and six from other causes Trains leaving the city continue to be
